Cloud LimeVoice™

LimeBox

Cloud LimeVoice™ Dedicated Communication Resources for your Business

Cloud LimeVoice™ is a dedicated telephony platform that is delivered with the flexibility of using the public or private cloud. Geared towards the small and medium-sized organization with a need to simplify how they deploy, support, and manage communications across their workforce, Cloud LimeVoice removes the headaches and hurdles associated with migrating the phone system to VoIP. Simply choose the IP phone platform, network, and features required and LimeVoice will do the rest.

Our approach is unique when compared to other cloud or hosted telephony providers. Cloud LimeVoice provides customers the option of extending their existing private network or leveraging the public network to deliver dial-tone and voice calling. This allows you to utilize your existing network investments and relationship with the carrier of your choice while maintaining optimum call quality for your business communications.

LimeVoice is delivered as a fully managed service with 24/7 monitoring and technical support. LimeVoice incorporates feature rich capabilities, enhanced call quality, ease of use, and seamless integration of mobile workforce – increasing productivity, simplifying processes, and enhancing presence. LimeVoice delivers the communication solutions a growing business can depend on without the hassle and costs of traditional systems.

Cloud LimeVoice – Reasons it makes sense!

1. Remove the burden of the phone system
2. Address communication needs quickly
3. Use your network or ours
4. Use standard IP phones
5. Scale and flexibility
6. Low upfront cost
7. Fixed, easily budgeted monthly cost
8. Central, 24/7 support
9. Single bill
10. Allow for future flexibility

Big Enterprise Features

LimeVoice delivers a robust feature set and the flexibility your business demands. Our advanced capabilities coupled with virtually unlimited interconnection options means LimeVoice can provide call quality that is unrivaled in the industry. Imagine all the capabilities of VoIP without the issues and risk.

Scalability

LimeVoice grows with your business, eliminating redundant capital expenditures associated with traditional communication systems. Interconnect new branch offices and expand your workforce dynamically from 25 to 500+. You will never outgrow your communication system again.

Lower Cost

Cloud LimeVoice service eliminates the resource overhead that is traditionally required to administer and maintain your phone system. Realize more from your investment.

Cloud LimeVoice™ telephony platform delivers rich business class features, scalability, and unmatched value. Deployed via public or private network and managed in the cloud, LimeVoice is a refreshing alternative to the status quo.
